

KELVIN NGUYEN

CLASS OF 2018

When Kelvin was young he wanted to be a builder or an engineer

WHAT HAS HE BEEN UP TO?

Since graduating in 2018 from Mount Waverley Secondary College Kelvin completed a 4 year double degree, Bachelor of Secondary Education and Bachelor of Science at Monash University.

Outside of his tertiary studies he worked as a tutor, piano teacher and support worker. He found this work to be satisfying and uniquely challenging, especially during the lockdown years.

WHERE IS HE NOW?

Kelvin is now working as a Science Teacher, teaching Years 9 - 11, here at Mount Waverley Secondary College senior campus. Welcome back!

SOMETHING YOU MAY NOT KNOW ABOUT HIM

Kelvin's arms are slightly double jointed at the elbows and he loves LEGO.
