

SANJI KANAGALINGAM '97

WHAT HAS HE BEEN UP TO?

Since graduating from MWSC, Sanji has completed a double degree in Mechatronics and Computer Science at Melbourne University as well as a Postgraduate degree in Executive Business at Melbourne Business School.

Over the years, Sanji has held various roles including: Systems Engineer, Engineer, Project Manager and Engineering Manager at Alstom & Bosch, working on train and automotive safety systems.

Sanji is also a founding partner of ANDHealth - a national digital health initiative which facilitates and supports the development & commercialisation of clinically validated digital health technologies across Australia.

WHERE IS HE NOW?

Sanji is the Managing Director at Curve Tomorrow - a start-up with the mission of improving the lives of 1 billion people using digital health technology. Over the past four years, Curve Tomorrow has grown from 4 to 30 employees in 3 countries.

SOMETHING YOU MIGHT NOT KNOW ABOUT HIM

Sanji married his high school sweetheart, Dianne Lieversz '97 (now a Learning & Development Manager), and have 3 children together.
